In sci-fi author Sam Landstrom's *MetaGame*, he creates a believable but disturbing world with fewer than six degrees of separation. In the Game, points amount to currency and top scorers are eligible for immortality. A mysterious, unifying force, the OverSoul, calls the shots, and an individual player's health contract can be indefinitely extended and with the offer of a permanent twenty-year-old's body and health, it's with fanaticism that gamers play the Game. D Light is one of the best players in his family and will do anything to win, even kill. When he's invited to a *MetaGame* an exclusive, high-stakes competition he jumps at the chance. But after the first quest, D Light's overly ambitious ways brand him a renegade. With a warped sense of free will that is needed to prevail, D Light must either kill someone he's grown to love or lose everything.
